

SUNRISE FESTIVAL

INUVIK, NORTHWEST TERRITORIES, CANADA
21-23 JANUARY 2022

CELEBRATE THE LIGHT: LANTERN LIGHT UP

How It Works

1. If you pre-registered for a kit using the online form, our team will be dropping them to the address noted in your form. Please note that the bags will be dropped using contact-less delivery. We will drop close to the door, porch, or other easily accessible outdoor area. We will not knock or approach the door, so please keep your eye out for a silver metallic bag. Bags will be dropped on Friday 21 January, between 4pm - 8pm.
2. Create your lanterns over the Sunrise Festival weekend with your families.
3. The kits provide various, but limited materials in which to make a lantern, but please feel free to decorate or improvise with materials you may have at home already.
4. Your lanterns must be ready by 6pm on Sunday 23 January.
5. View the map of Inuvik to see what time the Inuvialuit Communications Society will be in your town segment to take videos and photos of you, your family and your lanterns lighting up the skies.
6. During your allotted time, step outside your homes in your traditional clothing and footwear to show off your lanterns from your own driveway within your family bubble.

Important Information

1. Limited kits available, pre-register to secure a kit (one per family/household): www.inuvik.ca/lanternkits
2. Although the map designates a time per town segment, please note that timings may be delayed. We will stay up to date on our Facebook Page to let you know which segment we are heading to next.
3. A few days after, a Facebook Album will be available to view your photos. Further down the line, in collaboration with APTN and ICS a short video will be made from footage of the Lantern Light Up.
