

PUBLIC WORKS NOTICE

NEW BLUE BINS

The Town of Inuvik Public Works Department would like to remind all residents that we placed new blue bins along the majority of the streets throughout the Town. If there is a new blue bin within close proximity to your residence, please use the new blue bin, as we are no longer picking up garbage from the small residential bins, with the exception of elders who are unable to use the new bins.

If you would like your small residential bin removed and disposed of at the landfill, please contact the number below. We thank you for your understanding and we apologize for any inconvenience.
